Luther, Martin, 1483-1546.

A commentary on St. Paul's epistle to the Galatians, : wherein is most excellently set forth, The glorious riches of God's grace, and power of the gospel, with the difference between the law and the gospel, and strength of faith declared; to the joyful comfort and confirmation of all true Christian believers; especially such as, being inwardly afflicted and grieved in conscience, do hunger and thirst for justification in Christ Jesus: for whose cause this book is most chiefly translated and printed, and dedicated to the same. / Written

Layman, A, pseud.

No. 1 in *5540a.54=**E.219.1

An inquiry into the right to change the ecclesiastical constitution of the Congregational churches of Massachusetts. With a preface, addressed to the Rev. Joseph Lyman . . . Prefixed, Dr. [Jedidiah] Morse's Report to the General Association of Massachusetts . . .

Boston. Wells & Lilly. 1816. 79, viii pp. 21½ cm., in 4s.

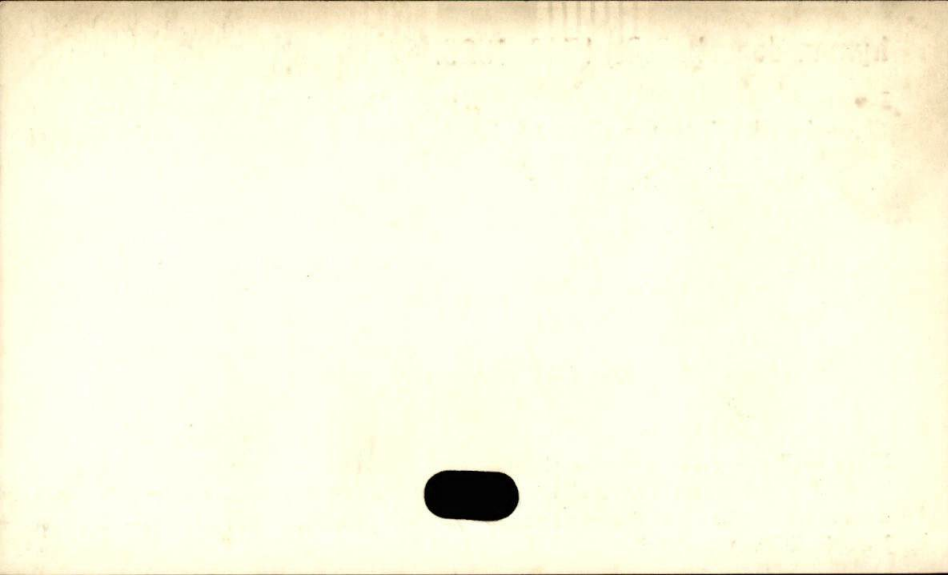

Dr. Morse's Report is a recommendation for "consociations" of churches, invested with certain powers which Layman believes to be subversive of Congregational rights. Dr. Morse was chairman of a committee of three appointed by the General Association.

1. The first of the year was a very cold one, and the weather was very disagreeable. The snow was very deep, and the wind was very strong. The people were very much distressed, and the crops were very much damaged. The government was very much troubled, and the people were very much discontented. The king was very much angry, and the people were very much afraid. The country was very much in a state of confusion, and the people were very much distressed. The government was very much troubled, and the people were very much discontented. The king was very much angry, and the people were very much afraid. 1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) for a given set of initial conditions. It is shown that the system of equations (1) has a unique solution for a given set of initial conditions if the functions $f_i(x, y, z, t)$ are continuous and satisfy the Lipschitz condition.
